Hashtag: #OSMHackfest5

Feel free to post photos and tweets about the presentations

Projects:

@Matilda, @5Gcity, @5GPPP5GMEDIA, @5GTango  
@Metro-Haul

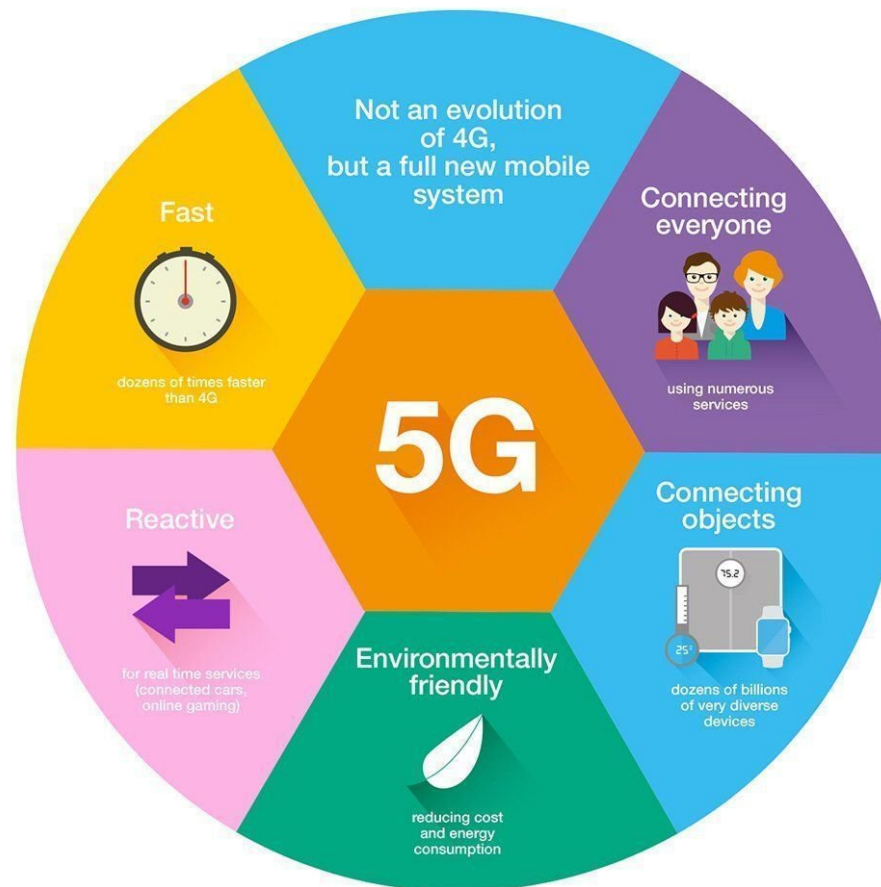

@opensourcemano

Sponsors:

@intel, @vmwaretelco, @cttc, @atos, @5gtango

# 5G is Important

By 2024 it is estimated that mobile traffic will have increased 5X

# 5G Needs Innovation

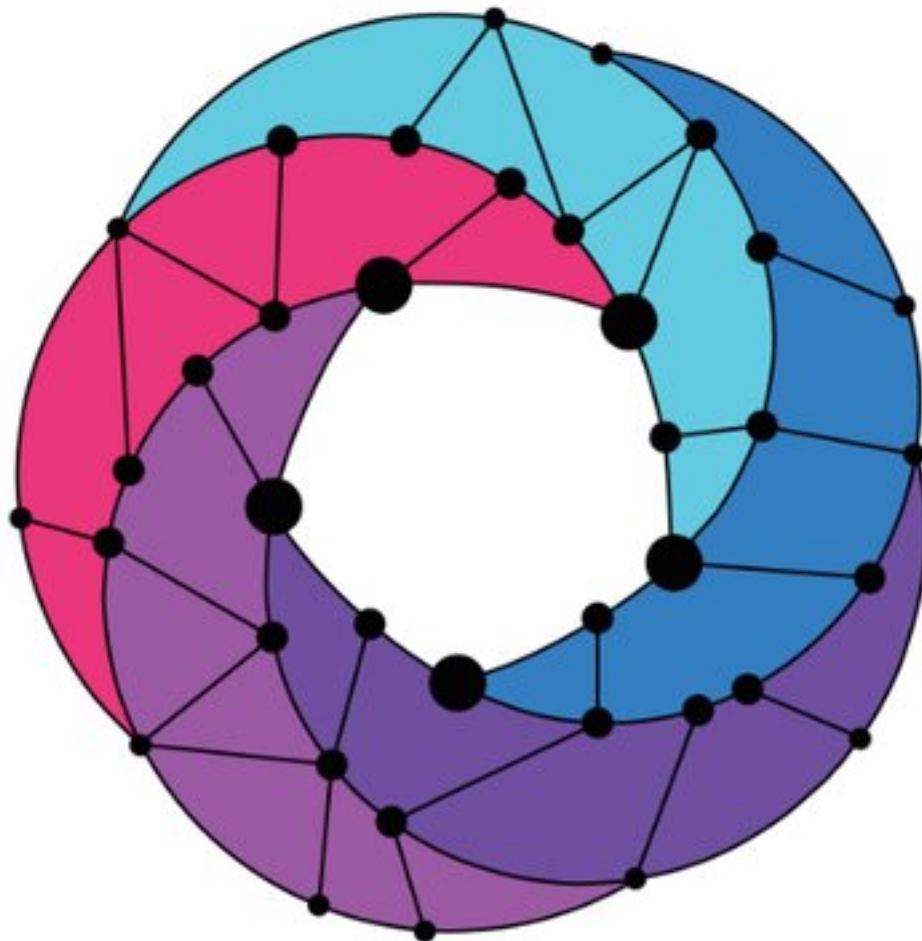

With new use cases come new challenges ....

# 5G Research Projects are the Key

Academia + Innovation Funding + Commercial Vendors

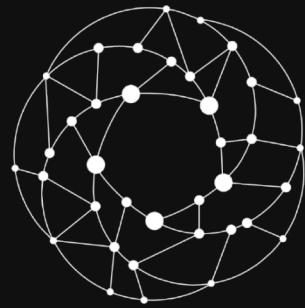

- Why is 5G Research important to OSM?
  - Drives innovative new features in to the codebase
  - Introduces new uses for OSM aside from basic Telco NFV
  - Broadens and enriches the OSM Ecosystem
  - Creates new avenues for collaboration

# 5G Day – Welcome to the Party

- The Goals of OSM 5G Day:
  - Share information on the current state of projects – raise awareness
  - Encourage different project to discuss possible collaborations and opportunities in the future
  - Celebrate the accomplishments in this space so far
